Conclusion

Post Issuance Attestation Report of China Construction Bank Hong Kong Branch's 2018 Sustainability Bond (Cont'd)

Based on our procedures performed, as described in this report as of 31 December 2020, nothing has come to our attention that causes us to believe that the assertions in the Appendix I: Hong Kong Branch's 2018 Sustainability Bond on the use and management of proceeds, project evaluation and selection and information disclosure and reporting of Hong Kong Branch's 2018 Sustainability Bond, in all material respects, does not meet the requirement as set out in the *Green Bond Principles 2018, Social Bond Principles 2020 and Sustainability Bond Guidelines 2018*.

Limitations

There are inherent limitations, for example, assurance engagements are based on selective testing of the information being examined and it is possible that fraud, error or non-compliance may occur and not be detected. A limited assurance engagement is substantially less in scope than a reasonable assurance engagement in relation to both the risk assessment procedures, including an understanding of internal control, and the procedures performed in response to the assessed risks. There are additional inherent risks associated with assurance over non-financial information including reporting against standards which require information to be assured against source data compiled using definitions and estimation methods that are developed by the reporting entity. Finally, adherence to the Appendix I: Hong Kong Branch's 2018 Sustainability Bond are subjective and will be interpreted differently by different stakeholder groups.

Our work is substantially less in scope than an audit conducted in accordance with *International Standards on Auditing* issued by the International Auditing and Assurance Standards Board. Accordingly, we do not express an audit opinion. Our assurance is limited to the Hong Kong Branch's 2018 Sustainability Bond issuance, and does not include statutory financial statements. Our assurance is limited to policies and procedures in place as at 31 December 2020, post issuance of the Hong Kong Branch's 2018 Sustainability Bond.

Use of Report

Our responsibility in performing our procedures and reporting thereon is to the Bank only and in accordance with terms of reference for this engagement as agreed with them. The report may not be suitable for another purpose. We do not therefore accept or assume any responsibility for any other purpose or to any other person or organization. Any reliance of any such third party

may place on the Hong Kong Branch's 2018 Sustainability Bond issuance is entirely at its own risk.

Our Independence, Quality Control and Assurance Team

We have complied with the independence and other ethical requirements of the *Code of Ethics for Professional Accountants* issued by the International Federation of Accountants, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behavior.
